Hi Sue,

Leslie is definitely available Wed 14<sup>th</sup> before noon. René and Laurie appear to be available, but may have conflicts I'm not aware of. Laurie would call in if possible, as she telecommutes that day.

We have a Board meeting that day, so they might prefer 11-12:00. I won't be available, but don't need to be. I'll leave it to you to send the appointment, in case you want to include others at EPA.

Thanks for reaching out to us,  
Jan

Hi Rene -

I need to provide comments to the NEPA Review office by the 19<sup>th</sup>, to roll into EPA's letter on all NEPA issues.

Could we have a call together maybe:

- Friday (Leslie not available),
- Tuesday 13<sup>th</sup> after 3:30 pm (NPS Roundtable ends then), or
- Wed 14<sup>th</sup> (9-10 am or 11 am – 4 pm are open for me)

If one of these windows works for you all (including Laurie Taul), feel free to send an Outlook invitation

I will try to include James M. Munson – the NEPA Program lead for assembling EPA's draft response.

Thanks,  
sue

Morning Sue,

I'm the Grazing Waiver Program manager here at RB-2 and would be happy to talk with you about the GMP Amendment EIS as it pertains to the Grazing Waiver I oversee for Tomales Bay. Other people you could reach out to here at RB-2 include Leslie Ferguson who oversees our grants program as well as Laurie Taul who oversees the dairy and confined animal facilities programs. I'll be out of the office today and Thursday and will call you on Friday this week when I return. Leslie is on vacation this week, and will be back on Monday.

Thanks and looking forward to chatting with you  
René
